irregularities in the administrative management of the permissions regarding Tuna 25-12, Ven, the rule of law is not followed, [www.venusia.se](http://www.venusia.se)

To whom it may concern

It seems there are major irregularities in the administrative management of the handling and issue of permissions regarding Tuna 25-12. There is a suspicion that the rule of law is not followed in the decision and public information processes.

More information on the issue

see [www.venusia.se](http://www.venusia.se)

Yours Sincerely,

Richard Gronvius

**Subject:** Grannhörande Bygg.2021.68 och Bygg.2021.69 Landskrona : documents, the sells/purchases including the donations concerning Tuna 25:12 and Tuna 32:3 after 2016-01-01

**Importance:** High

Dear all

Whom it may concern

Linda Sadjadi Warming, Stadsarkitekt, Stadsbyggnadsförvaltningen

Johan Nilsson, Förvaltningschef, Stadsbyggnadsförvaltningen

Tora Broberg, Stadsmiljöchef, Stadsmiljöavdelningen

Jörgen Hanak, miljöchef, Miljöförvaltningen

We are providing the two substantial considerations, warnings and possibly obstacles. Both points below have to be reviewed and answer found before any other activity proceeds.

1. The area of Tuna 25:12 Jöns Möllars Väg 8 and 10 (and our property 32:3) are contaminated with the micro plastic in the form disintegrated ensilage plastic, any work in the area will resurface the plastic which will flow to the sea.
2. The legal status of property 25:12 is questionable. The property was purchased from Lucas Björne son of the owner Glenn Björne who was the owner of our property too. Glenn Björne has executed the donation as a way to escape legal and financial responsibility for both 25:12 and our property 32:3 and the liabilities since at least 2015. The micro plastic is still not removed from our property

Dear all,

We got a request "Grannehörande" neighbour considerations related to the planned constrictions.

As our ground and the ground in question, Tuna 25:12 are contaminated with the macro plastic in form of an ensilage plastic.

Any construction will bring the micro plastic into the surface water and in the air.

We try to review the situation and before we concede to the constructions we would like to request the following documents.

1. All documents related to the sells/purchases including the donations concerning Tuna 25:12 and Tuna 32:3 after 2016-01-01
